

W2 5mm | 7mm

W2, where all pieces conjuncts into perfection.

5 mm suit

7 mm suit

THE LEGEND

W2 is the new back-zip wetsuit from Waterproof. To release yet another stunning collection is Waterproof's 25th anniversary as manufacturer of high-end exposure suits. After all the excitement created by the newly launched W1 front-zip suit, the W2 back-zip collection had to exceed our current line, so the task set for our designers was challenging.

We asked them to create a new generation of Wetsuits that is warmer, dryer, with a better fit, outstanding quality, easy to done and doff, yet make it still look better than anything on the market, and then load it over the top with features.

The result, W2 available in two versions, as a 5mm or 7mm steamer, surpass our expectations by far.

Features include a stunning anatomical Gender Specific design, comfort front neck zipper, inner plush lining and an interesting moulded rubber kneepad featuring a "hinge" effect.

This overall is normally used in combination with either a hooded ice vest, hooded under vest or a separate hood, thus catering for all the needs a diver may have.

W2 5mm | 7mm

FORM MOLDED VELCRO TABS
Quality is in all the details. New moulded TPU (eco) teeth, sticks only to the assigned Velcro part.

COMFORT ZIPPER
Fully gusset "comfort Zipper" to relieve stress on the surface.

SPINE PAD
10 mm thick and pre-shaped to fit neck area.

STRETCH PANEL
Form fitting wave flex back panel.

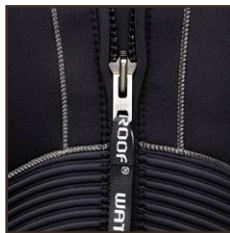

ANATOMICAL SCULPTING
Pre-bend arms and legs provides a perfect anatomical fit.

ANATOMICAL SCULPTING
Pre-bend arms and legs provides a perfect anatomical fit.

HINGE EFFECT
Knee pad constructed to follow the leg movements.

BRONZE SLIDER
Provide consistent ease of operation and hard-core durability.

KNEE GUARDS
Anatomically shaped, 3-D knee/shin guards provides hard core abrasion protection.

HIGH VISIBILITY
Reflective logo on the sleeve.

A SEAT THAT GRIPS
Coating that provides a non-slip grip and abrasion protection.

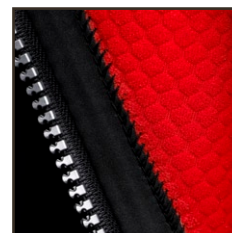

REINFORCED SHOULDERS
Critical area abrasion and anti-slip protection.

PADED ELBOWS
Toughtex provides abrasion resistance and shock protection.

GENDER SPECIFIC STYLING
Provides comfortable lift and support.

HEXTEX INNER LINING
A special shape and material that slows down the water movement in the suit. Extremely comfortable.
